Only in America with Larry the Cable Guy in Newport News tentatively scheduled to air Feb. 29 on HISTORY

~ Crew filmed segment at Endview Plantation in September ~

Newport News, Va. – In early September, when comedian Larry the Cable Guy brought his act to the Ferguson Center for the Arts, few people realized he also filmed a segment of *Only in America with Larry the Cable Guy* during his stay in Newport News.

Larry went ghost hunting at Endview Plantation on Yorktown Road! Endview was selected specifically for its "Paranormal Tour," developed by the Newport News Tourism Office, in cooperation with the Newport News Division of Historic Services, for visitors looking for "history with a touch of mystery."

Only In America with Larry the Cable Guy, which airs Wednesdays at 9 p.m. on HISTORY, bills itself as "an informative, new and quirky approach to history." In each episode, Larry travels around the country in order to explore the places, experience the events and meet the people who make America great.

While we won't reveal too much about Larry's paranormal findings at Endview Plantation, suffice it to say that Endview was briefly used as a hospital during the American Civil War, as disease and fighting took its toll on Confederate troops.

The Endview segment is tentatively scheduled to air at 9 p.m. Feb. 29 on HISTORY, shown locally on Channel 59 on Cox Cable, Channel 128 on Verizon FiOS, and Channel 269 on Direct TV. Check the HISTORY website for the most up-to-date episode schedule.
