Founded in 1587, the colony was intended to establish England's first foothold in the New World. But when its leader, John White, returned to Roanoke from a resupply mission, his settlers were nowhere to be found. They left behind only a single clue – a "secret token" carved into a tree. For 400 years, historians have speculated about what happened to the colony. But writer, correspondent, and author Andrew Lawler set out to solve the mystery. In the course of his journey, he encountered a host of characters obsessed with the colonists and their fate, and began to find out why the Lost Colony continues to haunt our national consciousness. 100 Museum Drive, 757-596-8175, [www.marinersmuseum.org](http://www.marinersmuseum.org)

Levick and Rosenfeld pushed the limits of the photographic medium, capturing exciting, point-of-view images over a nine-year span. Levick's work often placed the viewer squarely on deck, seemingly as part of the action, while Rosenfeld worked for Levick before he opened his own studio in 1910. 100 Museum Drive, 757-596-8175, [www.marinersmuseum.org](http://www.marinersmuseum.org)
